PROFESSIONAL PROFILE

Motivated Software Engineering student at Addis Ababa Science and Technology University (AASTU), building a foundation in programming and web development. Interested in creating useful, user-friendly applications and improving problem-solving skills through practical projects. Currently developing skills in front-end web technologies and C++ programming.

EDUCATION

Addis Ababa Science and Technology University (AASTU)
Software Engineering — Student
Addis Ababa, Ethiopia | [2029]

TECHNICAL SKILLS

Programming	C++ (basic to intermediate), JavaScript (learning)
Web development	HTML, CSS, JavaScript fundamentals
Tools	Visual Studio Code, Git, GitHub, Chrome DevTools
Core concepts	Problem solving, functions, arrays, structures, basic data structures

ACADEMIC & PRACTICE PROJECTS

Personal Portfolio Website
Built a multi-section portfolio with navigation, images, contact links, a separate projects page, and a custom favicon. Technologies: HTML and CSS (where applied).

Simple Calculator
Practiced a calculator that accepts two numbers and an operator and performs addition, subtraction, multiplication, and division. Technologies: C++ or JavaScript — keep the version you actually built.

Library Management System
Created a menu-based C++ practice program to add books, display book records, and manage borrowing and returning. Technologies: C++, structs, arrays, functions.

Movie Explorer
Practiced a movie catalogue program with options to add, display, search, and delete movie records. Technologies: C++, structs, arrays, functions.

PERSONAL STRENGTHS

Willingness to learn • Teamwork • Communication and presentation • Problem solving • Attention to detail

CAREER OBJECTIVE

Seeking opportunities to gain practical experience, contribute to software projects, and continue growing toward a career in front-end and full-stack web development.
